

SL908

Solar PV Type 4 (MC4) Crimp Tool

The Di-LOG SL908 Solar MC4 Crimping Tool is a professional-grade tool designed for precise and effortless crimping of Type 4 MC4 Male and Female Solar Contacts. It is built for durability and efficiency, making it an essential tool for solar PV installations.

Key Features

High-Precision Crimping: Features a ratchet mechanism for complete and secure crimps applying up to 1.2 metric tons of pressure at the crimping face with minimal hand effort.

Wide Capacity Range: Suitable for wire sizes 26-10 AWG (2.5–6.0 mm²).

Ergonomic Design: Reduces hand fatigue during extended use.

Durable Construction: Built for industrial use with robust materials.

Technical Information

- Crimping Capacity: 2.5–6.0 mm²
- Wire Gauge: 26–10 AWG
- Length: 270 mm
- Weight: 0.74 kg

Applications

Ideal for solar PV installations requiring secure and reliable cable connections

Additional Information

Weight: Lightweight and portable for on-site use.

Compatibility: Designed specifically for Type 4 & MC4 connectors.

Ease of Use: Ergonomic design reduces hand fatigue during extended use.
